

Certificate of Completion

Devansh Shukla

successfully completed on 18th June 2021 the

ESCAPE Summer School on Data Science for Astronomy, Astroparticle and Particle Physics

The programme involved project development for astrophysics, astroparticle physics & particle physics and provided theoretical and hands-on training on Data Science and Python development: coding environment and good code practices, version control and collaborative development, Python programming, scientific libraries for data science and analysis and machine learning.

On behalf of the ESCAPE Consortium

Giovanni Lamanna

Project Coordinator
